ABOUT OUR COMPANY

Once upon a time a river Sarno that with its power gave energy to a small waving of Carmine and his wife Vincenza. They chose for their products only natural yarns in linen, cotton and hemp. It was the year 1952. Then their sons bought mechanical looms that added to traditional jacquard machines. Also today their products smell of traditional fabrics with their natural yarns, hemstitch, embroidery and handmade knots.

NATURAL YARNS

LINEN

The linen fabric is fresh, light, relaxing. Linen is pleasant to the touch and the most hygienic fabric because it absorbs moisture and lets the skin breathe. It is very resistant, it can be washed many times without deteriorating and, moreover, it becomes softer with each wash. It can be washed in machine until 60°C and it must be ironing if you prefer.

COTTON

The cotton fabric is hygroscopic, breathable, strong, durable and resistant. It can be washed in machine repeatedly also using high temperature and basic detergents.

HEMP

The hemp fabric is sturdy, hygroscopic, breathable and thermostatic. It is an excellent thermal insulator. It is durable, robust and very elastic. It can be washed in machine also numerous times without losing its beauty; it becomes softer and brighter.

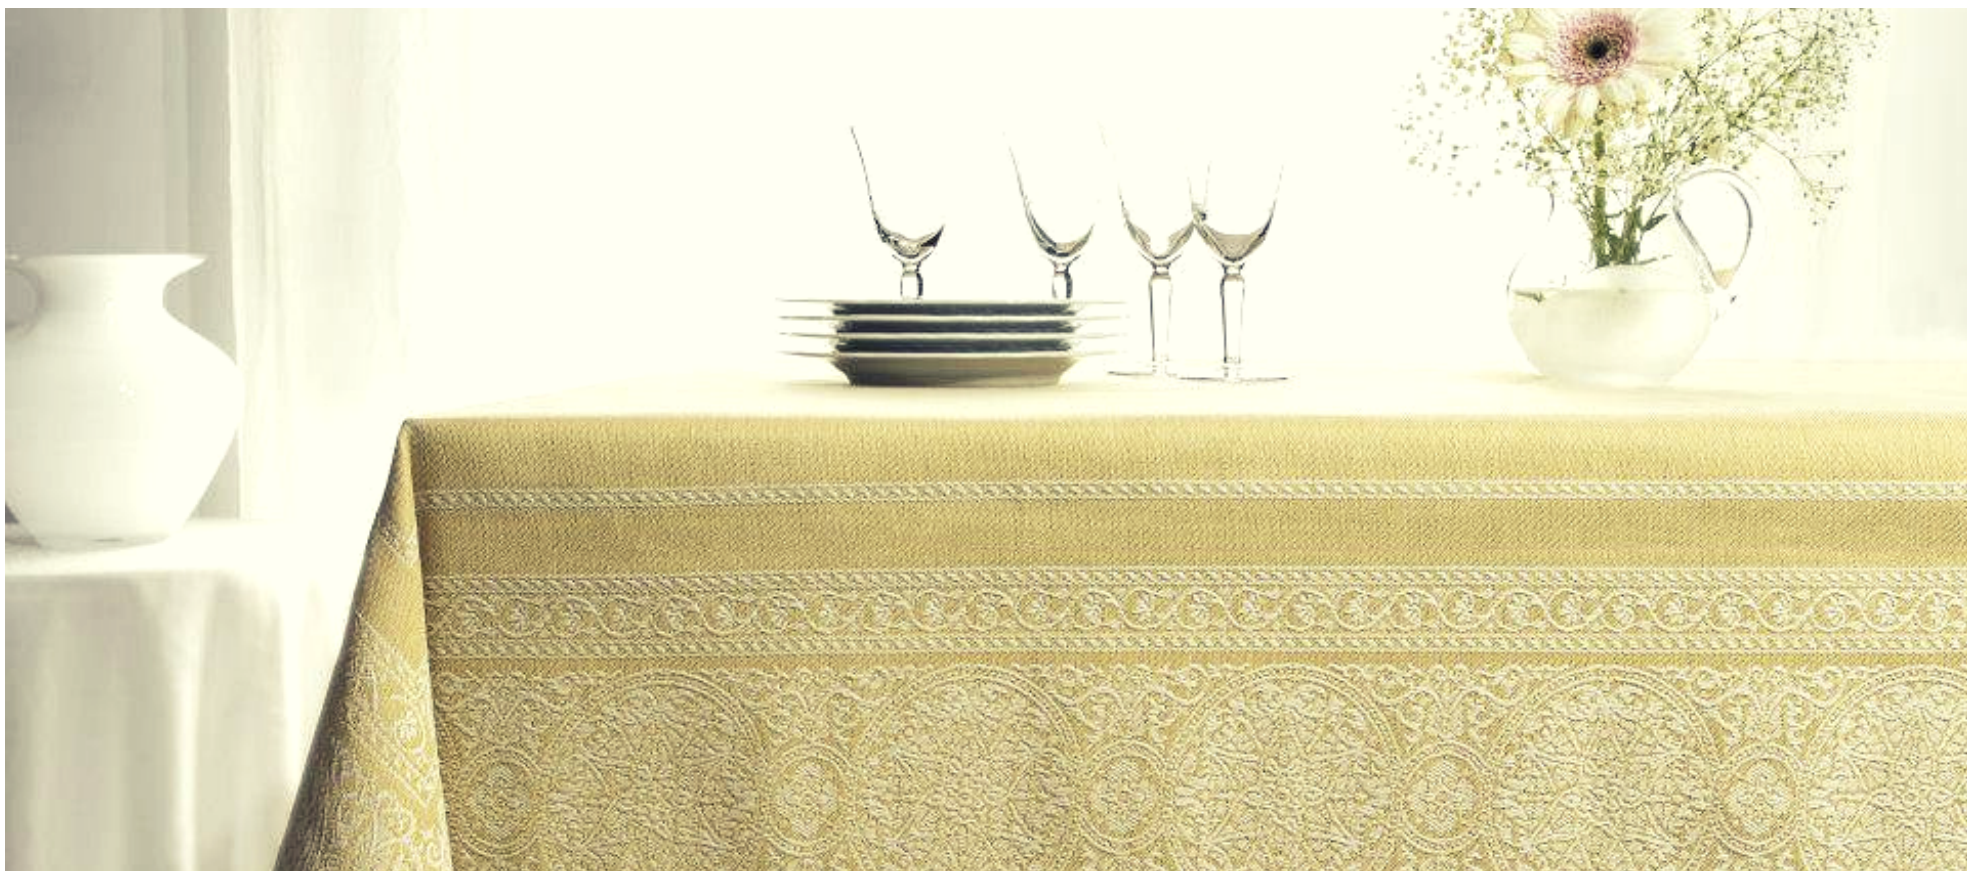

TABLE CLOTH

the kitchen collection contains: tablecloths, runners, tea towels, gloves, pot holders, aprons, towels, breakfast set, bread baskets, pillows.

The fabric can be in linen or in 50% linen and 50% cotton.

QUOTE

"Elegance is balance between proportions, emotions and surprise."

Valentino, stylist

BATH LINEN

the future belongs to those who believe in the beauty of their dreams

Eleanor Anna Roosevelt

BED LINEN
